

JODI ABRAHAMS

Full Stack Developer

Cape Town, South Africa | 078 209 6121 | jodiabrahams9@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of hands-on experience and 2+ years of professional experience building production-ready web and mobile applications. Practical, product-minded, and comfortable turning complex requirements into clean, usable interfaces and maintainable software. Strong in React, Next.js, TypeScript, React Native, Tailwind CSS, Node.js, REST APIs, relational data, and component-driven UI architecture. I take ownership, communicate clearly, learn quickly, and stay calm when debugging complex UI and product workflows through pull requests, code reviews, and changing requirements.

TECHNICAL SKILLS

Frontend

JavaScript (ES6+), TypeScript, React, Next.js, React Native, Vue.js, HTML5, CSS3, Tailwind CSS

Backend & Data

Node.js, REST APIs, Prisma, PostgreSQL, MySQL, Appwrite

Product Workflows

TipTap/ProseMirror, rich text editors, report manager UI, PDF/export flows, dashboard workflows

Testing & Quality

Vitest, Jest, Testing Library, Cypress basics, Postman, unit testing, manual QA

Tools & Practices

Git, GitHub, Vercel, Docker basics, WordPress, Figma, Sentry, Agile/Scrum, CI/CD basics, AI-assisted development

WORK EXPERIENCE

Full Stack Developer | [Transhumanity](#) | Remote | Nov 2025 - Present

- Contribute to a production SaaS reporting platform, focused on report editor, report manager, PDF/export, map snapshot, and library workflows.
- Built and improved rich report editor functionality, including toolbar state, selection persistence, undo/redo history behavior, editor preferences, page count indicators, markdown support, and canvas/report editing UX.
- Delivered report manager features such as folder/report cards, report counts, navigation fixes, report metadata, trash/archive flows, and backend-aligned frontend tests.
- Improved PDF/report export quality by fixing cover-preview behavior, page/spacing issues, optional generated text, and map/chart snapshot handling.
- Added and updated frontend tests for report manager and report editor flows, reducing regressions around history, selection, trash behavior, and UI state.
- Worked through GitHub PR review cycles, addressed reviewer feedback, handled rebases/conflicts, and shipped multiple approved/merged feature and bug-fix branches.

Full Stack Developer | [Freelancing](#) | Remote | Jun 2024 - Jun 2025

- Developed and maintained web and mobile features using React, Next.js, and React Native for a SaaS-style delivery platform.
- Built real-time tracking, secure payment integration, and multi-role user flows for customers, drivers, and admins.
- Used React Native to deliver mobile features under tight deadlines and support client rollout needs.
- Collaborated with designers and backend developers to translate requirements into responsive cross-device UI/UX.
- Optimized performance, reusable components, and responsive design across web and mobile platforms.

Web Developer Intern | [Life Choices Studio](#) | Apr 2024 - Jun 2024

- Developed a WordPress e-commerce template with SEO-optimized imagery for a Fruit & Veg store.
- Acted as Scrum Master by facilitating standups and sprint reviews.
- Created responsive layouts and improved site performance by reducing image load impact.

ADDITIONAL EXPERIENCE

Freelance Web Developer | **Freelance / Independent Projects** | Remote | Jan 2020 - Present

- Built and deployed responsive websites and web apps for local businesses and independent product ideas.
- Developed SaaS-style products with React, Next.js, Node.js, SQL, authentication, payments, and real-time tracking.
- Tested REST APIs with Postman, validated frontend/backend integrations, and practiced unit and end-to-end testing.
- Managed deployments with Git, GitHub, Vercel, and mobile-first Figma-to-code workflows.

Support Engineer | **Securicom** | Feb 2022 - Mar 2023

- Provided first-line technical support to enterprise clients via phone, email, and remote sessions.
- Logged, tracked, and resolved support tickets while troubleshooting network, email security, and software issues within SLA timeframes.
- Collaborated with developers, sysadmins, and internal teams to resolve recurring technical issues and document solutions.
- Communicated technical fixes clearly to technical and non-technical users while prioritizing urgent cases under pressure.

Junior Network Technician (Volunteer) | **Cape Peninsula University of Technology** | Dec 2017 - Jan 2019

- Supported physical network setups including routers, switches, and access points across campus buildings.
- Resolved basic connectivity and LAN configuration issues while assisting network engineers during infrastructure upgrades.

SELECTED PROJECTS

OpsFlow | Next.js, TypeScript, Prisma, PostgreSQL, Tailwind CSS, TipTap, Vitest, Vercel

- Built a full-stack SaaS operations workspace with authentication, workspace-scoped data, project/task workflows, team roles, report editing, PDF export, tests, screenshots, and deployment docs.

AI Resume Analyzer | React, TypeScript, Zustand, Puter.js

- Built an AI-powered resume analysis platform with authentication, resume upload, file handling, and job-fit feedback workflows.

Food Ordering App | React Native, TypeScript, Appwrite, Zustand, NativeWind

- Built a mobile food ordering app with authentication, cart flow, category filtering, search, and real-time Appwrite data integration.

EDUCATION

Full Stack Web Development | Life Choices Coding Academy | 2023 - Mar 2024

A+ Certification | Pearson Vue Testing Centre | May 2023

Information Communication Technology | Cape Peninsula University of Technology (Incomplete) | Jan 2017

Matric Certificate | De Kuilen High School | Jan 2016

LANGUAGES

English: Native | Afrikaans: Semi-intermediate
